# INTRODUCTION

Kanvi Technical Services LLC is a premier construction and electromechanical specialist delivering exceptional quality across the UAE's dynamic landscape. We provide integrated, end-to-end solutions for complex projects, from luxury residential developments to critical infrastructure.

We combine technical mastery with rigorous project management to ensure our clients' visions are realized **on time, within budget, and to the highest standards of safety and sustainability.**

- ❖ **Proven Delivery:** A track record of successful projects for top-tier main contractors and government entities.
- ❖ **Integrated Expertise:** Seamlessly combining civil construction with advanced MEP (Mechanical, Electrical, and Plumbing) systems.
- ❖ **Commitment to Quality:** Our unwavering focus on excellence ensures durable, efficient, and compliant assets.
- ❖ **Strategic Collaboration:** We build lasting relationships with clients and partners, becoming a trusted extension of their team.

## **Our Vision**

**Our vision is to be recognized as a leading professional company, revered for our commitment to excellence and innovation. We strive to build lasting partnerships with our customers, becoming their preferred stakeholder through exceptional service, trust, and reliability, while driving sustainable growth for all.**

## **Our Mission**

**At the heart of our mission lies a harmonious symphony of culture, collaboration, and cutting-edge innovation. We are dedicated to transforming the customer experience by intertwining the unique strengths of our diverse stakeholders, fostering an environment where creativity thrives and new technologies flourish.**

**Together, we don't just provide high-value services; we craft tailored solutions that resonate deeply with our customers' aspirations, empowering them to reach new heights and embrace the future with confidence.**

## **Our Culture**

**At Kanvi Technical service LLC, we foster a culture that empowers all stakeholders, encouraging them to explore their full potential while engaging passionately in their service. We believe that when our team members are able to fully utilize their strengths, they take pride in their contributions and feel a sense of ownership over their daily achievements.**

**This inclusive approach not only drives individual success but also propels our collective journey toward excellence. We are dedicated to cultivating a collaborative environment where success is a shared result—built on teamwork, dedication, and innovation.**

**By recognizing each effort and celebrating accomplishments, we stitch a strong fabric of camaraderie within our team. Our philosophy centers around the idea that when any member thrives, we all thrive, reinforcing a network of support among our stakeholders.**

## **Our Commitment**

**As we embark on this journey of growth and excellence, we invite you to join us. Together, we can achieve remarkable results, creating not only noteworthy projects but also lasting relationships built on trust, collaboration, and mutual success.**

We offer a full spectrum of construction and technical services, ensuring a single, accountable partner for your project needs

## Electrical System

### 1. Electrical HV/LV Systems

- ❖ Transformers and underground cabling systems
- ❖ Busduct and cable management
- ❖ HV/LV panels, Distribution boards, and building wiring
- ❖ Lighting systems, earthing, and lightning protection
- ❖ Solar PV systems

### 2. ELV Services

- ❖ CCTV and IT network solutions
- ❖ Access control systems, Etc.
- ❖ Kitchen hood exhaust systems
- ❖ Staircase ventilation systems

## Mechanical System

### 3. HVAC & Ventilation Systems

- ❖ Chillers, AHUs, and chilled water systems
- ❖ Pumps, VRV, package units, and DX units
- ❖ BMS systems, split ACs, and window ACs
- ❖ Ducting, VAV systems, dampers, and diffusers
- ❖ Car park ventilation systems
- ❖ Kitchen hood exhaust systems
- ❖ Staircase ventilation systems

### 4. Plumbing & Drainage Systems

- ❖ Comprehensive plumbing solutions
- ❖ Efficient drainage systems

## ON GOING PROJECTS

Project :

Reem Hills Phase 1 & Phase 2  
Luxury townhouses and twin villas

Main Contractor :

M/s. Trojan General Contracting LLC

## ON GOING PROJECTS

Project :

Construction, Completion and Maintenance of SB-03 Luxury Residential Project at Saadiyat Island, Abu Dhabi, UAE

Main Contractor :

M/s. Trojan General Contracting LLC

Project :

Supply and Installation of Split AC System

Client :

DEWA - Dubai Electricity & Water Authority

## Midsun RTV (Room Temperature Vulcanizing)

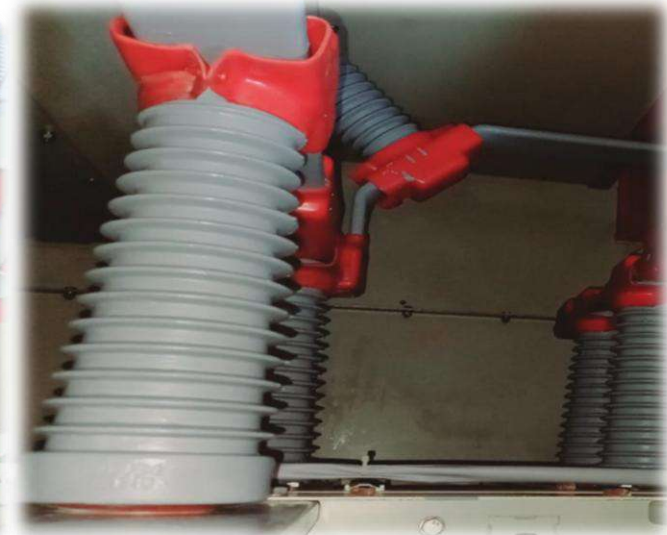

silicone coatings are used in switchgear and on busbars primarily to provide high-voltage insulation and prevent catastrophic **flashovers** caused by environmental contamination

## Midsun HVIC (High Voltage Insulator Coating)

A one-part hydrophobic coating that encapsulates pollutants like salt, dust, and industrial vapors. It prevents water filming on the surface, which eliminates the formation of conductive paths

## Midsun E/Paintable Insulation

Specially formulated for busbars and substations, this silicone rubber coating offers high dielectric strength (approx. 10kV per 30 mils of thickness). It is used to insulate phase-to-phase and phase-to-ground areas and protects against animal-caused outages.

## Projects Reference

Job Number	Project Title	Client	Scope of work
25/01	6 Bed room - Private Villa	Rock Fort	The Complete Electrical work.
25/02	GDH Data Centre B-1, KIZAD, Abudhabi	Raghav	Cable Tray Installation and GI Conduit Works
25/03	11 KV Cable Termination - Al Dhafra - Abudhabi	BCC	11 KV Cable Termination works
25/04	Cable Termination - SEPCO Desalination Plant	Sepco III	Control cable laying and termination works for Instrumentation system
25/05	REEM HILLS PHASE 1 ( TOWNHOUSES AND SEMI-DETACHED)	Trojan	3 BHK , 4 BHK & Luxury Villa Electrical Installation work
25/06	AC Installation at DEWA Power Plant	DEWA	Supply and installation of Split AC Installation
25/07	AC Filter - at various DEWA 132 KV Substation	DEWA	Filters Supply
25/08	REEM HILLS PHASE 2 (TWIN VILLAS & TOWNHOUSES)	Trojan	3 BHK & 4 BHK Villa Electrical Installation work
25/09	AC Installation at DEWA Power Plant	DEWA	Supply and installation of Split AC Installation
25/10	Main Hotel & Main Hotel Basement on Sector SDN1, Plot C4, Al Saadiyat Island, Abu Dhabi	Trojan	Plumbing Works (Water Supply system, Storm Water system, Drainage systems
25/11	Project Mercury Data Centre for DU Telecom - Dubai	JLW	Installation of LV panel, cable tray / containment, Cable laying and termination, UPS installation works
25/12	Project Khazana - Data Centre - Abudhabi	JLW	Installation of Cable laying and termination.
25/13	RTV – MIDSUN – Silicon coating	Energy Solutions / TAQA	Supply and supervision of MIDSUN RTV silicon coating for the TAQA Substation
25/14	Project Mercury Data Centre for DU Telecom - Dubai	JLW	Precast concrete wall / slab core cutting
